### **ABOUT RAMBLER METALS AND MINING**

Rambler is a mining and development company that in November 2012 brought its first mine into commercial production. Rambler has a 100 per cent ownership in the Ming Copper-Gold Mine, a fully operational base and precious metals processing facility and year round bulk storage and shipping facility; all located on the Baie Verte peninsula, Newfoundland and Labrador, Canada.

Rambler’s ongoing Phase II plans are to increase mine and mill production to 1,250 mtpd by the fall 2017. This initial expansion has been fully funded through CEII Mining’s investment. Rambler will also continue advancing Phase III engineering studies with a view to further increase production to 2,000 mtpd at the Ming Mine.

Along with the Ming Mine, Rambler also owns 100 per cent of the former producing Little Deer/Whales Back copper mines and has strategic investment in the former producing Hammerdown gold mine.

**Rambler is dual listed in London under AIM:RMM and in Canada under TSX-V:RAB.**
