Rambler's Ming Mine Project Receives the John T Ryan Safety Award from the CIM

London, England & Baie Verte, Newfoundland and Labrador, Canada – Rambler Metals and Mining plc (TSXV: RAB, AIM: RMM) ('Rambler' or the 'Company'), a copper and gold producer operating in Newfoundland and Labrador, Canada, is pleased to announce that it is the proud recipient of the John T Ryan Award from the Canadian Institute of Mining, Metallurgy and Petroleum ('CIM'). The trophy is awarded by the CIM to the metalliferous mine that, in one or more complete calendar years, experienced the lowest reportable injury frequency per 500,000 hours worked in Canada.

Rambler reported no lost time accidents or medical aid injuries at the Ming Copper-Gold Mine Project for the 2015 calendar year. Since the last lost-time accident, recorded on 23 September 2011, Rambler employees have worked 1,673 person days without recording an incident. In addition, the operation has worked over 477 days since the last reported medical aid.

There have been approximately 1,881,705 person hours worked on the project since its inception in 2006, with only one lost-time injury in nine years of continuous operations.

Norman Williams, CPA CA, President and CEO, commented:

"We are very pleased to have received this distinction and award from the CIM. Health and Safety is a critical component to the success of any operation and, while sound safety programs are a must, it is only with the combined efforts of every individual that an achievement like this is possible.

"As a Company we take great pride in being showcased as one of the safest mines in Canada and on behalf myself, and the entire Board of Directors, we would like to thank our employees for their outstanding dedication. As we embark on the next phase of development, construction and expansion we intend to continue operating with the same high level of awareness and safety that has made this award possible."

ABOUT RAMBLER METALS AND MINING

Rambler is a mining and development Company that in November 2012 brought its first mine into commercial production. The group has a 100 per cent ownership in the Ming Copper-Gold Mine, a fully operational base and precious metals processing facility and year round bulk storage and shipping facility; all located on the Baie Verte peninsula, Newfoundland and Labrador, Canada.

The Company's Vision is to be Atlantic Canada's leading mine operator and resource developer through growth and expansion of its existing assets; discovering new deposits; strategic partnerships; mergers and acquisitions. In addition to the Ming Mine, Rambler owns 100 per cent of the former producing

Little Deer/ Whales Back copper mines and has strategic investments in the former producing Hammerdown gold mine and the advanced Valentine Lake Gold Project.

Rambler is dual listed in London under AIM:RMM and in Canada under TSX-V:RAB.

Caution Regarding Forward Looking Statements:

Certain information included in this press release, including information relating to future financial or operating performance and other statements that express the expectations of management or estimates of future performance constitute "forward-looking statements". Such forward-looking statements include, without limitation, statements regarding copper, gold and silver forecasts, the financial strength of the Company, estimates regarding timing of future development and production and statements concerning possible expansion opportunities for the Company. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief are based on assumptions made in good faith and believed to have a reasonable basis. Such assumptions include, without limitation, the price of and anticipated costs of recovery of, copper concentrate, gold and silver, the presence of and continuity of such minerals at modeled grades and values, the capacities of various machinery and equipment, the availability of personnel, machinery and equipment at estimated prices, mineral recovery rates, and others. However, forward-looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to, interpretation and implications of drilling and geophysical results; estimates regarding timing of future capital expenditures and costs towards profitable commercial operations. Other factors that could cause actual results, developments or events to differ materially from those anticipated include, among others, increases/decreases in production; volatility in metals prices and demand; currency fluctuations; cash operating margins; cash operating cost per pound sold; costs per ton of ore; variances in ore grade or recovery rates from those assumed in mining plans; reserves and/or resources; the ability to successfully integrate acquired assets; operational risks inherent in mining or development activities and legislative factors relating to prices, taxes, royalties, land use, title and permits, importing and exporting of minerals and environmental protection. Accordingly, undue reliance should not be placed on forward-looking statements and the forward-looking statements contained in this press release are expressly qualified in their entirety by this cautionary statement. The forward-looking statements contained herein are made as at the date hereof and the Company does not undertake any obligation to update publicly or revise any such forward-looking statements or any forward-looking statements contained in any other documents whether as a result of new information, future events or otherwise, except as required under applicable security law.
